Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- A. Claims 1-10, drawn to a computer system for generating transaction price data, classified in Class 705, subclass 7.
- B. Claims 11-14, drawn to a computer-readable medium containing a data structure, classified in Class 707, subclass 104.1.
- C. Claims 15-19 and 38-43, drawn to a system for receiving a specification of item attributes classified in Class 705, subclass 27.
- D. Claims 20-37, drawn to a method in a computer system for providing price data, classified in Class 705, subclass 400.
- E. Claims 44-61, drawn to a method in a computer system for conducting on-line auctions, classified in Class 705, subclass 37.

Inventions A, B, C, D and E are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention A is different from others in that it can be used for modeling the best price solution for the given market conditions. Invention B can be used for organizing data structure. Invention C is different from others in that it can be used for purchasing goods via on-line catalog. Invention D differs in that it can be used for price determination for an item in real time environment. And invention E differs in that it can be used for conducting an on-line auction. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, or patentability requirements, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
